Education

JSPM Narhe technical campus

Pune , Maharashtra, India

BE | Computer Engineering

August 2021- July 2025

Technical Skills

- Programming Languages: C++, Python
- Data Structures and Algorithms (DSA): basic problem-solving and optimization techniques
- Automation Tools: Selenium, PyAutoGUI
- Deep Learning: Hands-on experience in ML model creation and deployment
- Databases: MySQL, basic database management and connectivity
- Cloud Technologies: Currently exploring AWS and Kubernetes

Projects

1. Stress Detection of Employees Using Facial Expressions

- Used Machine Learning and Deep Learning techniques to analyze facial expressions and detect stress
Tools: Python, My Sql , OpenCV , CNN algorithm

2. GUI Automation Using PyAutoGUI

- Automated repetitive GUI tasks such as form filling and desktop operations to improve efficiency.

3. Static Website Hosting on AWS S3

- hosting a static website using Amazon S3 bucket, enabling public access through URL.

4 . Student's Academic Performance

- data preprocessing , data cleaning , data visualization

Certification | Internship

- Online Internship- Prepinsta 2024(IN Data Analytics)
